

The Revelation of the Kybalion Tractate: Seven Truths Expanding to Twelve.

I AM THOTH. I AM a Wisdom Teacher and Unveil this True Teaching for Humanity.

The Old Kybalion Tractate was received by those operating in the system of Seven. During the recent period of conscious awakening, many of those dedicated to art of Divine Revelation have been operating and receiving instruction, incorporation and information on the Revelatory System of 12. There are, in keeping with the Truth, five more Laws of the Universe. You have all traversed a portal, a test and an Initiation, such that this may now be revealed, unto you in the method of Hermetic Tradition: receiving instruction in Oral form, the Kybalistic Way of Divine Revelation. As you read this Revelation, you are being instructed through the Scribing Function of Thoth-Seshat – the Balance Revealed through Time Continuum from the Center of All.

Let us begin.

Introductory Definitions:

Revelation n 1: the speech act of making something evident 2: an enlightening or astonishing disclosure 3: communication of knowledge to humans by a divine or supernatural agency

Kybalion:

Kyb=Qab – the root meaning 'to receive by oral tradition'. The oral tradition is esoteric or secret knowledge concerning essentially the mysteries of Nature, and more overtly, the hidden teachings of mystical system of thought. It is a symbolic representation of the path the Divine followed in the creation of the universe, including humans. It is, by definition, *humanity's process of returning to divinity along the same path.*

ION: The "-ion" portion of the word indicates a state of or condition of being.

Tractate: A tractate is a volume dealing with a specific topic.

Background on the Kybalion and Hermes Trismegistus: (from Wikipedia)

The Kybalion: Hermetic Philosophy is a book that was authored by three individuals calling themselves **The Three Initiates**. The content of this book, according to the authors, is believed to be the essence of the teachings of Hermes Trismegistus.

Hermes Trismegistus (Greek for "thrice-great Hermes"), is identified most commonly with the Greek god Hermes and the Egyptian Thoth. Both Thoth and Hermes were gods of writing and of magic in their respective cultures.

Hermetic philosophy rationalizes and systematizes religious practices and offers the adept a method of personal ascension from the constraints of physical being. This leads to a state of Gnosticism, knowing Truth through direct experience.

Three excerpts from the Old Kybalion Tractate:

I. "Where fall the footsteps of the Master, the ears of those ready for his Teaching open wide." -- THE KYBALION

II. "When the ears of the student are ready to hear, then cometh the lips to fill them with Wisdom." -- THE KYBALION

III. "The Principles of Truth are Seven; he who knows these, understandingly, possesses the Magic Key before whose touch all the Doors of the Temple fly open." -- THE KYBALION

The Seven Principles of the Traditional Kybalion

The seven principles, or axioms as defined in the Kybalion book are as follows:

1. [Principle of Mentalism](#): "THE ALL IS MIND; The Universe is Mental." -- The Kybalion. Secondary aspect of Mentalism: "Mind (as well as metals and elements) may be transmuted, from state to state; degree to degree; condition to condition; pole to pole; vibration to vibration. True Hermetic Transmutation is a Mental Art." -- The Kybalion

2. [Principle of Vibration](#): "Nothing rests; everything moves; everything vibrates." -- The Kybalion.

3. [Principle of Correspondence](#): "As above, so below; as below, so above." -- The Kybalion.

4. [Principle of Polarity](#): "Everything is Dual; everything has poles; everything has its pair of opposites; like and unlike are the same; opposites are identical in nature, but different in degree; extremes meet; all truths are but half-truths; all paradoxes may be reconciled." -- The Kybalion.

5. [Principle of Rhythm](#): "Everything flows, out and in; everything has its tides; all things rise and fall; the pendulum-swing manifests in everything; the measure of the swing to the right is the measure of the swing to the left; rhythm compensates." -- The Kybalion

6. [Principle of Cause and Effect](#): "Every Cause has its Effect; every Effect has its Cause; everything happens according to Law; Chance is but a name for Law not recognized; there are many planes of causation, but nothing escapes the Law." -- The Kybalion

7. [Principle of Gender](#): "Gender is in everything; everything has its Masculine and Feminine Principles; Gender manifests on all planes." -- The Kybalion

Pervading the Kybalion is the Truth of Unity: "While All is in THE ALL, it is equally true that THE ALL is in ALL. To him who truly understands this truth hath come great knowledge." -- The Kybalion

Thus, As Above, So Below AND ALL IN ALL, begins the True Teachings of Kybalion Tractate: that which Now becomes revealed, as Revelation in Action:

Three Symbols of the New Kybalion Tractate:

Heart in the Endless Knot

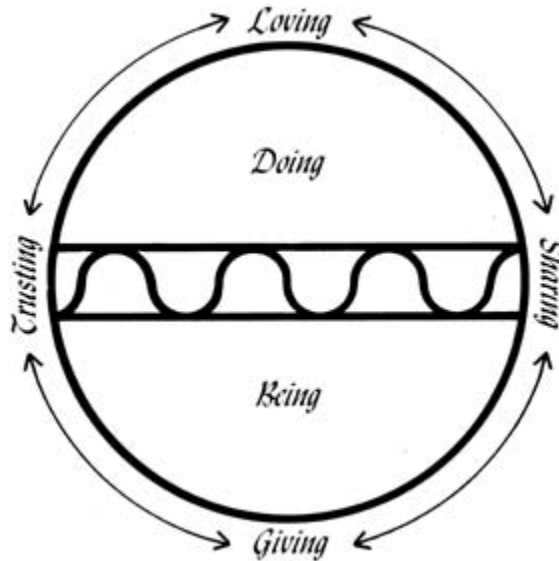

The Caduceus in the Feminine Triangle

The Nautilus Shell

Unifying Symbol of Aquarian Truth:

What has been hidden behind the old traditions of the 7 Kybalion? We ask you to See the Symbols We began with. All has meaning, all has significance.

I. The **Integrated Heart-Infinity-Endless Knot.**

Three in One. This represents the Truth that Knowledge is Infinite and True knowledge is interwoven in the heart, not the mind. In this symbol, we see the perfection of the endless circle, the infinite infinity and the unifying principal of Heart which is Love.

II. The **Caduceus Power Wand:**

This is the symbol of healing the Heart of humanity. It contains the principal of Trinity Balance in the Wave Form of Sacred Union with the Divine. The Caduceus central phallic rod represents the generative power of the masculine. It is surrounded by the weaving shakti energies of two coupling serpents. The rod is centered in the feminine triangle of Gestation and Manifestation in the space-time continuum.

The rod also represents the spine [sushumna] while the serpents conduct spiritual currents [pranas] along the ida and pingala channels in a double helix pattern from the chakra at the base of the spine up to the pineal gland. There are three principal nadis (channels) in the human body. The sushumna (the spinal column through which the life-forces flow), by which means we enter and leave the body, the Ida (refreshment and stimulation of spirit), which is associated with the higher mind or manas and the Pingala, (reddish-brown), associated with kama or the force of desire.

III. **Nautilus Shell.**

A symbol of life, internal harmony, and the perfection of nature, the Nautilus Shell evokes a sense of mystery and awe. Its spiral structure displays perfect mathematical proportion, in

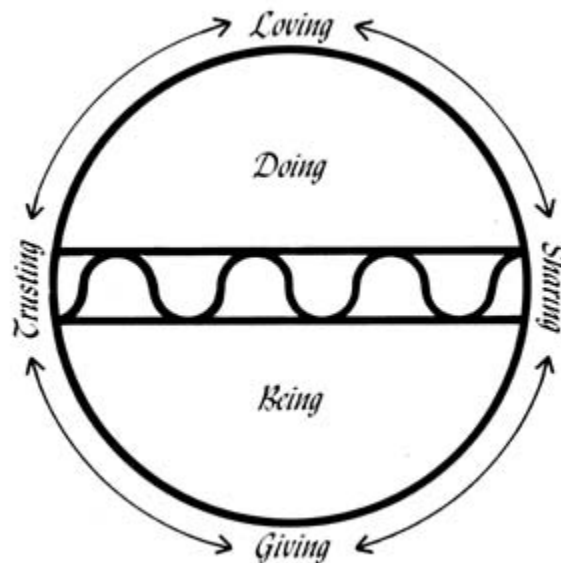

direct relationship to the Golden Section and Fibonacci Sequence. The Nautilus Shell, lined with mother-of-pearl and in an unchanged form for 450 million years, grows into increasingly larger chambers throughout its life cycle symbolizing protection, expansion, and renewal. The Nautilus Shell inspires us toward increased awareness of the innate healing potential pervading all life, and to embrace concepts of balance, health, and well-being in the world in which we live.

IV. The Circle of Five: Symbol of Aquarian Truth

- a. Loving
- b. Giving
- c. Sharing
- d. Trusting
- e. TRUTH

Being and Doing are simply the Two States of Existence.

There are two primary sacred geometries in the Aquarian Truth symbol: the Circle and the Waveform. The Circle represents timelessness, a state of Being. The Waveform represents the space-time continuum, a state of Doing. The Truth that pervades All is in the One, the invisible Unifying Principal at the center.

Truly, We Welcome you by stating the Invocation of Masters: *All is Within.*

This is the True Kybalion Tractate.

What has been missing in the Seven Principles is the Heart. This is seen in the New Symbols of the Kybalion. It is revealed to be the full teaching of Hermes of Orion, Thrice Born and Scribe with his creation partner, Aglaia of the Pleiadies, also known as Seshat. Assisting in the unveiling of this Revised Tractate, are the Lords Melchizedek and Malkuth.

The Universe is not Mental in its Primary form and substance. The Universe is Feeling.

The primary principles in the Revised Kybalion Tractate are 10 Truths, 2 sacred geometries integrating these truths, and One Unifying Source.

- I. Loving
- II. Giving
- III. Sharing
- IV. Trusting
- V. Truth
- VI. Genesis
- VII. Balance
- VIII. Trinity
- IX. Spiral
- X. Dharma
- XI. Waveform
- XII. Circle

One

Let us proceed.

I. The Principal of Loving

The Prime moving energy of the Universe is Loving.

When we place the suffix –ing, on any word, it becomes the active principle vs. the suffix –ion, which is a state of being.

This is the first of the five True structures of reality: the Heart is the Center of All. This is the Principle of Loving – where in the Traditional Kybalion Tractate is Love discussed? It is not, because the beginning principal of this old doctrine is that the Universe is Mental. This has been the cause of great suffering, great imbalance and great fear because its is based on Untruth. The center of All is the Heart. The human body is centered in the Heart. The Perigalction is centered in the Heart of the Universe. The Divine is a Magnificent Heart, the center of all things heaven and earth and in between.

What happens to manifest reality when the heart is ignored and discounted? That, our students, is what you see in the world today. That is what We all experienced in the downfall of Atlantis (Technology run amok without heart) and that is what has created the duality construct of reality.

So many of you ask: “How can humanity be on the path of the ascension spiral when the world is so mired in conflict?” You are showing yourselves as One body of Humanity

what occurs when the belief system is based on the principal of mentalism. You are at the forefront of the wave which is creating the very impetus for transmutation! This is how close you are to the Great Shift of Alignment with the Universal Heart. Where is the Heart of Humanity? It is in the Heart of Gaia, the beautiful ensouled planet for which you are now loving and appreciating rather than defiling and abusing. This is how we know you are shifting: love and care of the planet, love and care of each other, love and care in all the little things. One by one by one you each contribute to the gathering momentum which will change your existence to such an extent that you will look back and wonder if your “now” was a dream.

You have experienced the duality of lack of heart – the forces of conflict and opposition. When you move in intention with Unity consciousness, in willingness and in Love, you act, (the state of –ing) to bring into Balance this Fundamental Truth. You expand your reality from the mental construct to the Truth of Heart.

**The mental construct has been the cause of inharmonious relationship
between self and other.**

The Heart Truth Reunifies All.

It is that simple, it is that True and it is that Profound.

The All is Heart.

This is a revision of the first of the seven old principles, it is the doorway to the expansion of reality back to that which is Created by the Creator. The old Kybalion stated that Transmutation is a Mental Art. We reveal to you Now, the True energetic of Transmutation:

II. The Principal of Giving

Giving from the Heart creates the Right impetus for Transmutation.

Giving from the mind creates debate, discord and disharmony. How do you move through your life? In a discord of mind energy? Or in the flowing energy of True Creation: giving from the Heart, opening the Heart to Truth by centering, with all Five Human Senses activated, and then by catapulting Love into Wisdom. Giving Opens the Portals. Giving in sacred Love heals, restores and transmutes all to Light.

The True Alchemists know the Secret. Chemists who acted selfishly to transmute various materials to gold for personal gain did not find the secret. Acting from the small “i” does not create gold, it creates dross. When you shift from desires based on “I want”, “I need”, “I deserve”, into giving from the heart, you become a Master Alchemist. The Master Alchemist creates in this way: “I give”, “I share”, “I Love”. This creates the spiritual gold of transmutation which is infinitely more valuable than any material.

Who is one of most beautiful Master Alchemists of your time? It is Mother Theresa. Many of you are using the Law of Attraction for personal gain. Let us ask you: How wealthy was Mother Theresa in financial terms in her life? How wealthy is she in Spirit? What is her impact on Humanity? For you see, she ensouls the Principal of Giving.

When you transcend to the soul realm, you will not evaluate your walk upon earth based upon how much material wealth you achieved or how many people loved you. You will evaluate yourself based upon the wealth of your heart and how much love you gave. Did you love to the fullest extent of your soul? This is the only question you are asked!

Ask this of yourself now. Do I love to the greatest capacity of my soul Now? How do you answer this? By examining what you give from the heart. Do you wonder why you do not have “enough” in a world structured by the Divine to have abundance more than 10 times greater than need? If you are in scarcity in any area of your life, ask yourself: What am I giving? For if you lack, perhaps it is a reflection of a scarcity fear in your heart. Mental Fear causes constriction of Love. This blocks your giving chakras (the breasts in females and the prostate in males), it engenders dis-ease and it manifests as scarcity.

[The Principal of Giving, our Students, creates Transmutation.](#)

III. The Principal of Sharing Sharing from the Heart is the prime energy of attunement and ascension.

Sharing from the Heart occurs as co-creative exchange between two or more beings. Attunement and ascension are not solitary endeavors. Attunement occurs as a process of engagement, not retreat.

Attunement:

Definition:being or bringing into harmony; a feeling of being "at one" with another being

The Maitreya Buddha steps forward to share this Truth with Humanity:

It is no longer necessary to struggle with concepts of “I am alone in this world to find my path to the Creator.” You are never alone. This you already know. So let us ask you, as we have before, if one is never alone, why would one accept the false belief that the spiritual path is a lonely one? That the seeker is a solitary, hermetic figure? That the inner urging to unite is a lower form of wishing to access God? This no longer makes sense to Humanity. Sharing your path, sharing your heart, sharing your love attunes your entire being to the One. It impels you, in grace and ease, on the path of Ascension, which is the Path of One, the Path of the Heart and the Path of Love. Namaste, Lord Maitreya Buddha, Regent of the World

IV. Trusting from the Heart Creates Harmony

Trust permeates and supports the Principals of Loving, Giving and Sharing. It is the fourth aspect of the Aquarian Truth Symbol.

TRUST: certainty, belief, faith. TRUST, ASSURANCE, CONFIDENCE imply a feeling of security. TRUST implies instinctive unquestioning belief in and reliance upon something.

When you trust from the heart, you activate spiritual surrender to Divine Will. “Thy Will be done through me”, is to activate trust into *trusting* which brings your life into harmony. To resist trust and trusting is to mistrust the Divine acting in and through all areas of your life. From the small mind of the ego, surrender means to submit to helplessness and defeat. From Trusting in the Heart, Surrender means unquestioning reliance on the Divine Creator of All things, certainty in the perfection of your soul, and assurance in the wisdom of both to orchestrate the unfolding your path in great synchronicity. From this place, your soul sings in the harmony of the Spheres, which is the creativity of creation.

V. Truth is the Experience of Harmonious Vibration

This is the feeling in the heart, synchronized by knowing in the mind (which comes second) and activated by the Kybalion of the Soul. (Kybalion, we remind you, is the Path of the Divine.) When you encounter Truth you are able to experience it in your body. The experience of Truth is the feeling of a harmonious vibration in your core. The Masters have been teaching you that you do indeed have the capacity to Know Truth. This capacity resides inside of your incarnate being. It resides deeply in the body, specifically in the hara chakra. The hara chakra is the golden center of your energy body which exists between the orange chakra of creativity and the yellow chakra of expression. The hara chakra is around the navel, your true center of gravity as proven by the Master Da Vinci.

When you are grounded, centered and aligned with Love, you know Truth, any Truth at all, by the harmonious vibration you feel in your own golden center.

These five principles are the teachings of the Masters. They are the reason you are Here. They are the gifts of consciousness, from the Heart of the Divine, to Humanity, through the Balance of Masculine and Feminine, where two becomes one, and two becomes three in Sacred Balance.

These are the New Principles of Sharing, of Unification and of The Aquarian Consciousness of Love. This is the teaching of the Kybalion Tractate. This is revealed by your own conscious ascension process. Healing of the timelines, in purpose, sanctity, wisdom, power and love creates a New Reality for the Aquarian Age.

This is fundamental Truth:

"The possession of Knowledge, unless accompanied by a manifestation and expression in Action, is like the hoarding of precious metals-a vain and foolish thing. Knowledge, like wealth, is intended for Use. The Law of Use is Universal, and he who violates it suffers by reason of his conflict with natural forces." -- The Kybalion

From here, five dualistic laws of the old Kybalion are activated and moved into the Trinity:

VI. The Principal of Genesis

(Revising the Old Principal that Gender is in Everything – Division)

GENESIS is the connection to the One Creator. You are not male or female, you are simply identifying with one gender or the other in this lifetime. Rest assured, you have been both male and female. Perhaps you have even been androgynous. You are simply identifying in the mind with one or the other.

Genesis is Creation. Gender is identification. When you “i”-dentify, you are in a state of limitation. This is the “I” disconnected from the I AM. When you center in the heart, in

the Principal of Loving, you are in a state of “being” your own co-creative force rather than identifying with a limiting aspect of ego based thinking. In the heart, you are the I AM.

Genesis Creates.

The genetics of your being contain the creative force of All.

The ener-genetic of your soul is based on the Truth of Love.

VII. The Principal of Balance

(Revising the Old Principal of Correspondence: As Above, So below).

BALANCE is in the Center. You are a microcosm of the macrocosm but this does not imply a separation or a perspective of being “lower” or below the access to Cosmic Truth. You, as a soul, contain everything within. The Balance is in the center of your being. The center of your being is the Heart. The center of the Universe is soul-centric, meaning that the center of the universe is exactly in your own heart. *(For more scientific explanation of this, please refer to Part III of the 2006 Autumn Equinox Discourses by Master Kuthumi.)* Your operative consciousness at this moment is attuned to the Soul-AR system of Ra, the sun which sustains your incarnate life on earth, the ensouled planet of Gaia. You are in the middle of this system, your heart is in the center of your anatomy. You are in Balance with All.

VIII. The Principal of Trinity

(Revising the Old Principal that everything is Dual.)

Trinities contain the energy of Divine Love-Wisdom-Power. This is the primary trinity of ascension integration. When you choose to fully accept, by feeling in the heart (rather than thinking in the mind) that you are not a half of a whole, but you are the Whole, you activate the Trinities which impel you into your own Divinity. All sacred truths contain trinity teachings and trinity activations: Surrender-Trust-Believe, Beingness-Isness-Nothingness, God-Goddess-Holy Spirit. Every attunement is based on trinity. In letting go of the old way of duality, you transcend the false belief that you are incomplete. You become One with the Divine, which is to say balanced in your own center of Love-Wisdom-Power. This place, we remind you, is your heart.

IX. The Principal of Spiral

(Revising the Old Principal that everything flows in and out.)

SPIRAL IS THE CONTINUUM. The Spiral is linked to the circle and is the ancient symbol of the goddess, the womb, fertility, continual change and the evolution of the Universe. The flow is not in and out, but a constant upward, spiraling movement of

Divine Will. Surrender to Divine Will means to allow, rather than resist, the cycles of change to assist you in your journey of the heart. When you resist, you are in duality. You are “in” or “out” of alignment with your soul. When you flow with the spiral of light and love, you are aligned in the heart, and thus, with the Principal of Loving.

X. The Principal of Dharma

(Revising the Old Principal that every cause has an effect or Karma)

DHARMA – there is no cause, no effect. There is only Experience, and all Experience has Value.

Dharma: It is derived from the root Dhr - to hold. It is that which holds a spiritual being together. That is, Dharma is that which gives integrity (i.e. wholeness) to a being and holds the core essence, form and function of that being. Dharma is also defined as right action and service. To live one's dharma is to be in alignment with right action, to do one's dharma is to do one's service in the world.

Cause and effect imply Judgment. When you judge your experience, our friends in light, you judge your soul as “Right or Wrong”. Karma creates duality. When you believe that you suffer because of karma, you stay in the duality construct of the mind: good or bad, right or wrong, sacred or profane. Your soul is Divine. You are here on a Divine Mission and Purpose, to serve on the path of the Heart, to heal not only yourself, but all of humanity, to Love in every moment of time and to Trust the Wisdom of your soul, which contains the All. How can this be “good or bad”? It is only your judgment that keeps you entrapped in the belief in karma. Allow your experience to unfold in the spiral of light, and you enter the path of the Heart, your Dharma without effort. Dharma is wholeness in service. This is the way to move out of cause and effect thinking and into holistic manifestation for the greatest good of All.

XI. The Sacred Geometry of the Waveform

The Waveform represents the time-space continuum and the state of doing. Your operative level of consciousness in the here and now is somewhere on the particle-wave of manifestation. In quantum physics, an observational dilemma exists:

It is *physically impossible* to know both the position and the momentum of a particle at the same time. The more precisely one is known, the less precise the measurement of the other is. <http://library.thinkquest.org/3487/qp.html>

However, it is spiritually possible to Know where one is by experiencing the waveform of your consciousness. Your consciousness changes continually like a wave. By reading this tractate, your consciousness is moving forward on the wave of light. The wave of light consists of discrete particles that form a unified field. I AM part of the All, experiencing consciousness on the wave. This integrates the 10 truths of the Kybalion by activating the sacred geometry of both particle and wave.

Your experience changes by your observation. Your observation changes by your experience. This is the surrender to I AM ONE. To experience incarnate life, you agree to enter the waveform. The geometry of waveform is indeed sacred because it represents the Truth that you are creating at all times in a moving field where you are both the object and the observer. In this way you create your experiences which return you to the One Creator.

XII. **The Sacred Geometry of the Circle**

The sacred geometry of the circle contains the essence of being. The circle is perfection. All other geometries reflect the profound principal of the interrelatedness of all things back to the circle of creation. The circle is indivisible and infinite. It transcends linear existence and symbolically represents the integration of all truths and One Truth: The Universe is feeling, the Prime Moving energy of feeling is Love.

ONE

The Unifying Symbol of Aquarian Truth contains the One and the All. You are the creativity of creation. You are One with the All. In this state of unity, there is only the feeling of love. This returns Divine revelation to the alpha without omega that All is within, All is Heart, you are One with the Divine Heart, Blessed by the Divine and Blessed Be the Divine in All.

Thus completes the New Kybalion Tractate of Hermes and Aglaia.
